The Asian Prosthetic and Orthotic Scientific Meeting 2014  
The Second Meeting of the International Society for Restorative Neurology  
November 28 ~ November 30, 2014 / Taipei International Convention Center

---

Dear colleagues and friends,

As the Congress Organizer, it gives us great pleasure to welcome you to the Asian Prosthetic and Orthotic Scientific Meeting 2014 (APOSM 2014) in conjunction with The Second Meeting of the International Society for Restorative Neurology (ISRN). This great meeting is organized by ISPO – Chinese Taipei, Taiwan Society for Prosthetics and Orthotics, and Taiwan Academy of Physical Medicine & Rehabilitation, which will be taken place in Taipei, Taiwan, from November 28-30, 2014.

Taipei is the principal cultural, economic and political center of Taiwan. This metropolis is one of the most fascinating cities in all of Asia with its combination of old and new, coupled with its energetic economic growth. The venue, Taipei International Convention Center, is a world-class, purpose-built facility located in the heart of Taipei, one of Asia's most dynamic cities in Asia. The Center is an integral part of the Taipei World Trade Center complex which includes a superior exhibition hall, flexible convention facilities, hotel, and office tower. Everything you need is here -- under one roof.

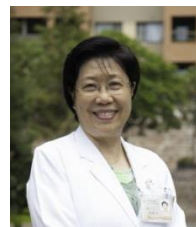

There is no doubt that the success of the Congress should be attributed to all of the Delegates who come here to present their papers, to see their old friends and to make new ones. According to Confucius, the great age of China, one of the happiest moment in life is to have friends visiting us from far-off places. Here, I quote this famous saying to welcome all of you. I hope that all of the distinguished guests from abroad will have the opportunities to enjoy the dynamic beauty of Taiwan and the fine Taiwanese cuisine, while also experiencing the warm hospitality of Taiwanese people.

Once again, with open arms and warm regards, we welcome you all to Taipei!

Sincerely yours,

**Simon Fuk-Tan Tang, M.D.**  
President  
The Asian Prosthetic and Orthotic Scientific Meeting 2014

**Alice MK Wong, M.D.**  
President  
The Second Meeting of the International Society for Restorative Neurology

---
